

<SDGs> Cooperating in creating a place for artists with disabilities to work and supporting their independence

Participated in the final selection of the Paralympic Art World Cup 2021

The Park Hotel Tokyo was chosen as a judge for the final selection of the "Paralympic Art World Cup 2021," an international art competition. In the SDGs Declaration, Park Hotel Tokyo aims to create a place for artists with disabilities to work and support their independence, and with the cooperation of the Paralympic Art Management Office, artists with disabilities from all over the world will show their artistic talents. We are engaged in activities such as holding exhibitions (corridors on the 29th and 32nd floors). We have participated in the Paralympic Art World Cup as a cooperating company every year, and this year we participated as a judge for the final selection. The selection date was October 29th (Friday), and five in-house art team staff members discussed and judged the work to select a work suitable for the 2021 convention theme "SMILE". The results will be announced by the Paralympic Art Management Office in January 2022, along with the scores of the other judges, and the award-winning works will be displayed at the hotel's exhibition hall.

We hope that many people will see the award-winning works, and we look forward to your visit at this opportunity. Park Hotel Tokyo will continue to strive to contribute to a "sustainable journey".

About Park Hotel Tokyo

Park Hotel Tokyo was founded on the 25th to 34th floors of Shiodome Media Tower in 2003 as a sister hotel of Shiba Park Hotel (Minato-ku, Tokyo, founded in 1948). The reception, restaurants and bar are located on the 25th floor, and you can enjoy the view of Tokyo Tower from the reception.

There are 270 guest rooms, with rooms on the 26th to 34th floors. In 2013, we rebranded based on art with the concept of "INFINITE TIME AND SPACE AMID COGNIZANT JAPANESE BEAUTY", and as part of that project, we created 31 "Artist Rooms" with the walls of the guest rooms as canvas.

This project won the 2017 3rd Japan Tourism Awards "Award for Excellence in the Field of Domestic and Inbound Travel Award".
