

# Letters from Nikko National Park

We will introduce you to the beautiful nature in Okunikko.  
Listening birds chirping, take a deep breath in forest...They will give you a comfortable time.

*Malus toringo (Senjogahara Moor)*

*Cruise boat (Lake Chuzenji)*

*Emberiza spodocephala (Senjogahara Moor)*

*Primula japonica (Senjugahama Beach)*

## ● Flowers

### ◆ Malus toringo (Zumi)

On May 29th and 30, the weather in OkuNikko was like early summer, and the Malus toringo in Senjogahara Moor began to bloom. The best time to see Zumi flowers will be this weekend to the middle of next week.

### ◆ Primula japonica (Kurinsou)

On June 2nd, even on a weekday, there were many people at Senjugahama Beach. The area with many flowers as shown in the photo is only a small part of the whole area. We will be able to enjoy the flowers until the end of next week.

## ● Informations

During May, the Lake Chuzenji Cruise boats were unable to stop at some piers (Shobugahama Beach and Embassy Memorial Park) due to lack of water, but now the water level has risen so boats can stop at all piers. Also, operation to the Senjugahama Beach course has started. (operation period: Jun 1st – Jun 30th)
