

Letters from Nikko National Park

Vol. 48
SEP 23rd, 2022

Nikko City Tourism Association
<https://www.visitnikko.jp/en/>

We will introduce you to the beautiful nature in Okunikko.
Listening birds chirping, take a deep breath in forest...They will give you a comfortable time.

Ryuzu Falls

Lake Yunoko

Aeshna juncea juncea
(Senjogahara Moor)

● Natures

The trees around Ryuzu Falls and Lake Yunoko have begun to change colors.
Lake Yunoko fishing will be available until the end of September.
In Shiranezawa River, where the trout flows, trout can be seen running up and spawning.

After Typhoon No.14 passed, in the northern part of Senjogahara Moor, the sidewalk between Izumiyadoike Pond and Yudaki Falls is not a boardwalk, so there is mud everywhere. Be careful when walking through.

● Informations

I encountered a group of elderly women who were unable to move due to exhaustion at the bottom of Sanno Pass. Rescue often occurs due to fatigue. Please prepare a reasonable hiking plan.

Oncorhynchus nerka
(near Lake Yunoko)
