

# Letters from Nikko National Park

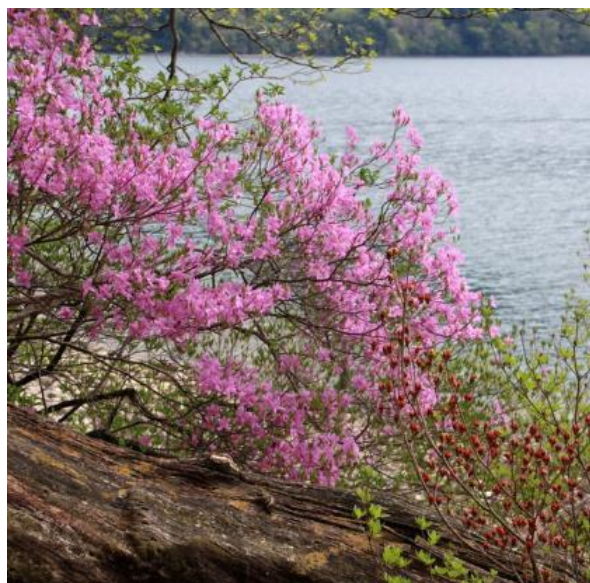

We will introduce you to the beautiful nature in Okunikko.  
Listening birds chirping, take a deep breath in forest...They will give you a comfortable time.

*Fresh green (at Lake Chuzenji north shore)*

*Rhododendron dilatatum (at Lake Chuzenji)*

*Primula japonica (at Shobugahama Beach)*

## ● Nature

The fresh greenery between Shobugahama Beach and Senjugahama Beach is beautiful. Based on the blooming conditions this year, I expected the White Azaleas to be at their peak, but I hardly saw any flowers. Flowering was noticeably better last year and the year before, so this must be the aftermath of that. At Usagijima Peninsula in Lake Yunoko, you can see the beautiful the Rhododendron dilatatum blooming, and have also begun to bloom at Ryuzu Falls.

Along the national road near Shobugahama Beach, the Primula japonica has begun to bloom. Flowering has also been confirmed at Senjugahama Beach. I think the best time to see them is from the end of May to the beginning of June this year.

## ● Information

Fallen rocks had blocked the trail near Senjugahama Beach, but a detour was set up in the morning of May 15th, making it passable.

*Narcissus Flycatcher (at Yudaki Falls)*
