App for International Travelers

Launch of "Tokyo Metro For Tourists"!

Get Useful Sightseeing Info Quick in Six Languages

Tokyo Metro Co., Ltd. (Head Office: Taito Ward, Tokyo; President: Akiyoshi Yamamura; "Tokyo Metro" below) **released "Tokyo Metro for Tourists," an app for international travelers riding our subways, on Friday, August 30.**

"Tokyo Metro For Tourists" is the Tokyo Metro's official free app for international travelers visiting Tokyo. It is available in six languages: English, Korean, Chinese (Simplified and Traditional), Thai, French, and Spanish.* The app provides a single place to get information to solve your problems. It's also designed to help you find useful sightseeing information quickly.

The app displays recommended sightseeing spots based on information you save in the app about the places you want to visit and the things you want to do in Tokyo. This information helps you enjoy sightseeing in Tokyo even more. Make sure to use this app when touring Tokyo's sights on the Tokyo Metro.

Tokyo Metro will endeavor to provide ever better information to international visitors to Japan to make riding our subways an easier experience.

See attached document for details.

Note: Some pages only available in English. The app is not available in Japanese.
