

Letters from Nikko National Park

We will introduce you to the beautiful nature in Okunikko.

Listening birds chirping, take a deep breath in forest...They will give you a comfortable time.

Hatchodejima Peninsula (on October 31st)

● Nature

The autumn foliage in Yumoto area, Senjogahara Marshland, and Odashirogahara Marshland changed from the broad-leaved trees to the yellow leaves of larch, and it reached to its final stage.

The entire volume of leaves in Yudaki Falls decreased, but the autumn foliage became even more vivid in red.

The best place to see the autumn foliage now is on the shore of Lake Chuzenji, it can be enjoyed in various places such as sightseeing boats and hiking trails along the lakeshore.

It seems that the area of autumn foliage has dropped to 1200m zone above sea level at the top of Iroha Slope. The one at Byobuiwa cliff on First Iroha Slope is beautiful.

*Byobuiwa cliff on First Iroha Slope, curve #39
(on October 31st)*

Odashirogahara Marshland (on October 30th)

Yudaki Falls (on October 30th)
