● Nature

The first snow was spotted on Mt. Nantai on November 7th, 13 days later than last year. Snow also fell in Yumoto in the early hours of November 6th, turning the mountain white. As of November 9th, snow could still be seen in the distance on Mt. Shirane.

There was no snow on the road to Yumoto via Iroha Slope, but there was snow on the Konsei Road. The autumn leaves descended Iroha Slope into the city.
