

Keisei Electric Railway Co., Ltd.

Making Sightseeing in Tokyo Even More Accessible from Narita Airport!

Tokyo City Pass (Standard) + Keisei Skyliner: New Release of a Great Value Set Product!

Keisei Electric Railway will release Tokyo City Pass (Standard) + Keisei Skyliner on Thursday, November 27. This great value new product combines a one-way ticket for the Skyliner (basic fare and premium charge) for the first time with the Tokyo City Pass (Standard) sightseeing ticket for inbound travelers that is sold by Tokyo Metro and LINKTIVITY.

The Tokyo City Pass is a sightseeing product which combines four elements: (1) TOKYO SKYTREE, TOKYO TOWER and other leading sightseeing spots in Tokyo (select one), (2) sightseeing spots unique to Tokyo that we want inbound travelers to know about such as offering incense at Senso-ji Temple and bathing at a traditional *senjo* public bath, (3) the Tokyo Subway Ticket that allows you to take unlimited rides on the Tokyo subway, and (4) a coupon that enables you to use the TOKYO TOYOSU MANYO CLUB at a discount.

We are now releasing a new product which combines a one-way ticket for the Skyliner (basic fare and premium charge) that connects Narita Airport to central Tokyo in as little as 36 minutes with the Tokyo City Pass (Standard). In doing so, this new product will provide a premium experience that will allow you to visit sightseeing spots in Tokyo to your heart's content immediately after landing at Narita Airport. We will also make this product available to those other than inbound travelers.

Please take this opportunity to use the fast and convenient Skyliner from Narita Airport to the central Tokyo and then enjoy sightseeing in Tokyo in comfort.

Please see the next page for details of this product.
