

Spa Montagne 20th Anniversary

**Enjoy our signature scenery, inspired by Japanese nature and tradition,
while taking in the breathtaking views of Mount Fuji and Lake Ashi.**

Spa Montagne, located within “HOTEL DE YAMA” in Hakone, Kanagawa Prefecture, will celebrate its 20th anniversary in August 2026. From its unparalleled location offering panoramic views, the spa presents signature treatments to travelers from around the world that blend the philosophy of the “Five Elements theory(五行説)”, the ancient Japanese technique of “Anpuku(按腹)” and thermal care using lava plates from Mount Fuji. We invite you to discover a wellness experience found nowhere else, where international-standard quality—recognized by multiple wins at the WORLD LUXURY SPA AWARDS—merges with the abundant natural energy of Hakone.

■ 20th Anniversary — A History of Our Wellness Nurtured by Hakone

It has been 20 years since Spa Montagne opened on the shores of Lake Ashi, a place beloved by Baron Koyata Iwasaki, the fourth president of the former Mitsubishi Zaibatsu. Drawing on the abundant natural energy of Hakone and the wisdom of the “Five Elements Theory,” Spa Montagne has provided healing experiences to countless guests from Japan and abroad. Furthermore, our long-standing reputation for excellence has been recognized internationally through multiple awards at the WORLD LUXURY SPA AWARDS.

The Three Core Values of Spa Montagne

Continuing Hospitality	Refined and passed down over 20 years of history, our proven techniques and hospitality ensure that every therapist provides personalized care and a deeply relaxing experience that lets you lose track of time.
Harmony of the Five Elements	The “Five Elements Theory” is an ancient Eastern philosophy that holds that all things are composed of five natural elements—wood, fire, earth, metal and water—and that maintaining a balance among them promotes physical and mental well-being. Based on this philosophy, Spa Montagne offers a unique wellness experience where we personalize oils and treatments to suit each guest’s condition on the day of their visit.
Living in Harmony with Nature	We offer sustainable wellness experiences, such as foot baths using natural spring water from Hakone and local plants.

■ Signature Menu — A Fusion of "Anpuku", Lava Stone and the Five Elements

What all of our signature treatments have in common is the combination of “Anpuku(按腹)”, a Japanese traditional technique for restoring the body's overall balance and abdominal heat therapy using lava plates from Mount Fuji. This approach, which works from the inside out, delivers the ultimate in relaxation.

	Course / Duration	Prices (including tax)	Treatment Details
①	Sleep Well 90 min. (120 min. total)	36,300 JPY	A course designed to guide your mind and body into a state of deep relaxation Five Elements Relaxing Body + Head Massage + Warming Balm Treatment

■ Day Trips — The Perfect Complement to Sightseeing in Hakone

Spa Montagne warmly welcomes not only overnight guests but also day visitors. Many international travelers exploring the Hakone area stay at nearby accommodations and visit the spa exclusively, making it a popular wellness destination chosen as an ideal daytime activity for inbound tourists.

Spa & Onsen Synergy Experience

Service Benefits (Complimentary)	Guests using the day-trip spa can enjoy “Tsutsuji no Yu,” a natural hot spring sourced from HOTEL DE YAMA's own on-site spring, at no additional charge.
The Synergistic Effects of Wellness	Bathing in the hot springs before and after your treatment helps relax your muscles and enhances the spa experience. This seamless combination of hot springs and luxury spa adds significant value to the Hakone tour itinerary.
Ease of integration into itineraries	Since guests staying at nearby inns and hotels can enjoy a combination of a luxury spa and hot springs, this package is easily incorporated into daytime itineraries for high-end inbound tours.
